Professional Summary

UI/UX Designer with experience designing mobile and web applications using Figma. Skilled in user research, wireframing, prototyping, dashboard design, and user-centered design workflows.

SKILLS

UX Skills: User Research, User Flows, Wireframing, Prototyping, Usability Testing, Information Architecture, Interaction Design, Heuristic Evaluation

UI Skills: Visual Design, Dashboard Design, Design Systems, Responsive Design

Tools: Figma, FigJam, Canva, Notion

Technical: HTML, CSS

PROJECTS

Academic Project Submission System

- Designed a web-based academic workflow platform for project submission, evaluation, and progress tracking.
- Created role-based dashboards for Students, Faculty, and Admin users with structured workflows and navigation.
- Developed user flows, wireframes, information architecture, and reusable design systems using Figma.

Rental Property Finder — Mobile Application

- Designed a rental property search and booking mobile application from research to high-fidelity prototype using Figma.
- Conducted user research and created user flows, wireframes, and navigation systems to improve property discovery.
- Designed listing, search, booking, and property detail screens with usability-focused interaction flows.

The Luxe Fashion Mobile App

- Designed a luxury fashion shopping mobile application focused on modern UI and premium user experience.
- Created high-fidelity mobile screens with improved visual hierarchy and product discoverability.
- Conducted competitor analysis and optimized layout structure, typography, and shopping workflows.
